

SlipNOT[®] Metal Safety Flooring

ROAD PLATES

SlipNOT[®] road plates are ideal for high traffic areas that can become slippery with water, oil, gasoline and other substances. SlipNOT[®] traffic plates can be used to cover open trenches, sinkholes, and areas of road construction. They can quickly restore a jobsite back to pre-project conditions by bridging open excavations and trenches dug for drainage, cables, gas mains or water mains. SlipNOT[®] non-skid steel road plates can be used as a permanent structure or may be moved along as work progresses.

PRODUCT INFORMATION

Thicknesses: 1", 1-1/4", 1-1/2" typically

Stock sizes:

4'x8'	5'x8'	6'x8'
4'x10'	5'x10'	6'x10'
