

OUR COMPANY

ABOUT US

SlipNOT® Metal Safety Flooring, Division of the W.S. Molnar Company, manufactures slip resistant metal flooring products that are designed to increase safety and decrease your risk exposure. *SlipNOT*®'s exclusive product line includes slip resistant plate, grating, flattened expanded metal, perforated plate, ladder rung / covers, drain covers, vault covers, stair treads, nosings, handrails, road plates, floor scales, and plank. Customized to meet detailed specifications, *SlipNOT*® products meet the needs of the most complex projects, regardless of scope or schedule. *SlipNOT*® products have a long, low maintenance life cycle, and are simple to install.

SlipNOT® products are available in steel, stainless steel, aluminum and galvanized steel. The variety and versatility of surface options allow *SlipNOT*® products to be utilized extensively in countless environments and industries including food and beverage, manufacturing, utility, government, education, military, oil and gas, recreational, commercial, aerospace, and metals and mining.

The W.S. Molnar Company manufactures *SlipNOT*® Metal Safety Flooring anti-slip products in its Detroit, Michigan facility, shipping products throughout North America.

As a women-owned (WBENC Certified), ISO 9001:2015 registered company, *SlipNOT*® takes pride in the professional quality of our work. With decades of knowledge, experience, and achievement, *SlipNOT*® has exceeded all recommendations set by safety regulatory agencies such as: OSHA, ADA, ASTM, NFPA, ANSI, and UL.

OUR PEOPLE

SlipNOT® professionals are leaders and innovators — we are highly dedicated to our clients and demonstrate our commitment to excellence on every project. Each individual contributes to our overall success. For the benefit of our company and our customers, we encourage personal responsibility, commitment, and excellence. We stress creativity and strive to find the best safety solution to resolve our customer's concerns. We believe in partnering with our clients on every project to deliver the best end result. For these reasons, we think you'll see why *SlipNOT*® Metal Safety Flooring is a leader in slip resistant metal safety flooring and related products.

BUSINESS PRINCIPLES

Quality - To achieve excellence in both safety and the quality of our products, *SlipNOT*® has an uncompromising determination for the best.

Integrity - Our employees hold themselves to high ethical standards and work to find the most efficient solution for our client.

Dedication - We strive for success on every project, large or small, and understand that every detail matters.
