

STAINLESS STEEL

FOOD & BEVERAGE SOLUTIONS

*Slip*NOT®

AMERICAN WORLDWIDE FOOD & BEVERAGE COMPANY

SOLUTION: Grade 2 stainless steel floor plates were installed on work platforms and stair treads around processing tanks. The chemical and corrosion resistance, durability, traction, and longevity were appealing to the food company, reducing the risk of slip and fall accidents and thus creating safe and productive work areas.

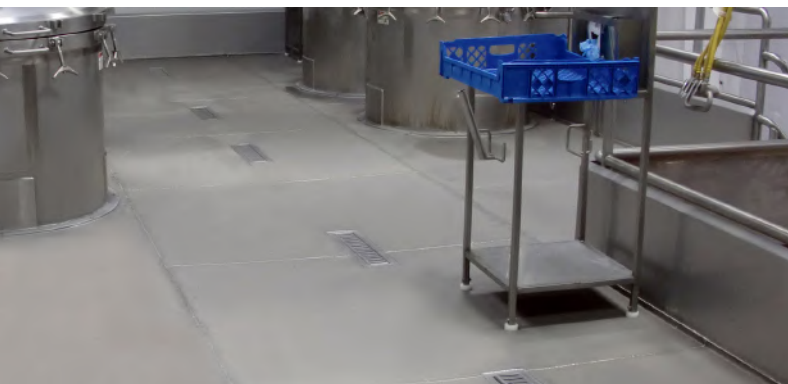

**STAINLESS STEEL
COATING**

Love SlipNOT! Have seen it used in several factories and in my opinion is the best available coating for slip resistance. Customer service is great as well.

EHS MANAGER at NESTLÉ

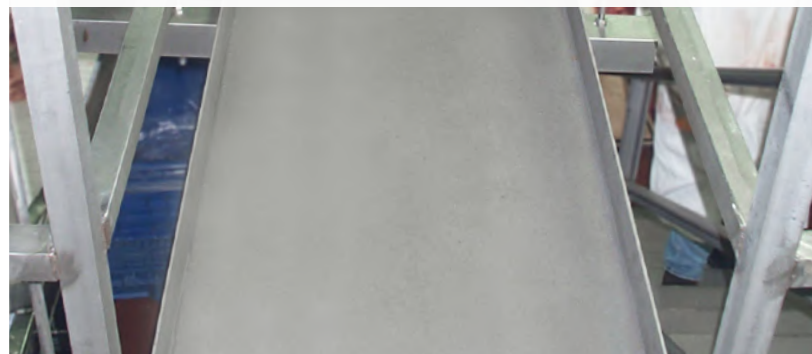

ORGANIC FOOD PROCESSOR

SOLUTION: The Plant Engineer contacted SlipNOT® for slip resistant drain covers and floor plates. The products are performing well throughout the plant in the continuous presence of food particles & harsh chemicals, as well as frequent power washing.

BEEF PROCESSING FACILITY

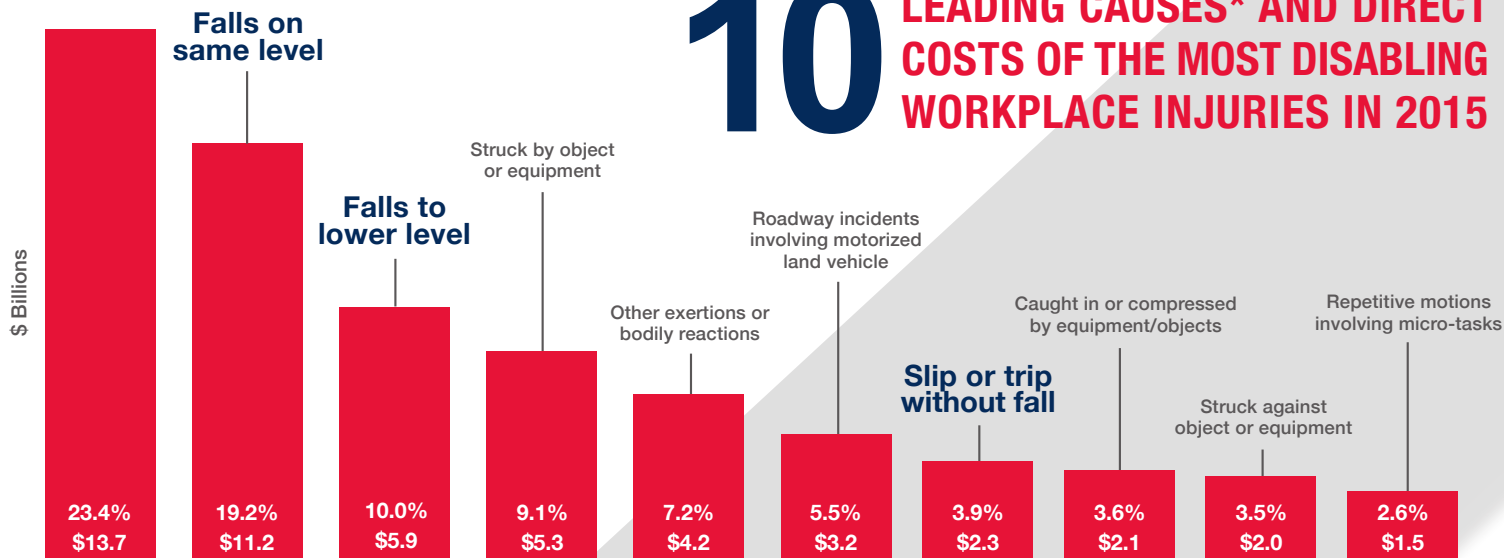

SOLUTION: SlipNOT® provided stainless steel plates that were fabricated to detailed specifications, including kick plates, cut outs, notches, welds, nosings, and risers. Due to the fats, oil, and cleaning solutions throughout the production plant, a slip resistant and food safe product was needed.

 WALKING
 SURFACES

WORLDWIDE FOOD & BEVERAGE COMPANY

LOCATION: Green Bay, WI

SOLUTION: The food processing facility contacted a local contractor to design a specialized stainless steel, three scale platform and catwalk. A trench drain was included on the stainless steel platform to collect run off. Keeping safety in mind, the customer requested the SlipNOT® stainless steel coating be incorporated.

WHAT INDUSTRY PROFESSIONALS SAY ABOUT SLIPNOT

Very nice product that holds up well and offers slip resistance protection in slippery locations.

ENGINEER at CAMPBELLS SOUP COMPANY

Great products, service, and etc. Helps achieve safety goals in a big way!

PURCHASING at KENT QUALITY FOODS

This was very easy to work with and weld - would highly recommend. Keep up the great work!

MAINTENANCE COORDINATOR at COCA-COLA

KENT QUALITY FOODS

LOCATION: Grand Rapids, MI

SOLUTION: Due to the oils, fats, and grease from the franks and sausages, Kent Quality Foods shipped their existing drain covers, grating treads, and grating platform to SlipNOT® for a slip resistant stainless steel coating.

VOORTMAN COOKIES

LOCATION: Burlington, ONT

SOLUTION: Voortman's was in need of a slip resistant portable staircase to aid in the cleanup of their production line as well as some fixed landings in order to access their cookie wire cutting machines. *SlipNOT*® provided various sized 1/8" thick 304 stainless steel material.

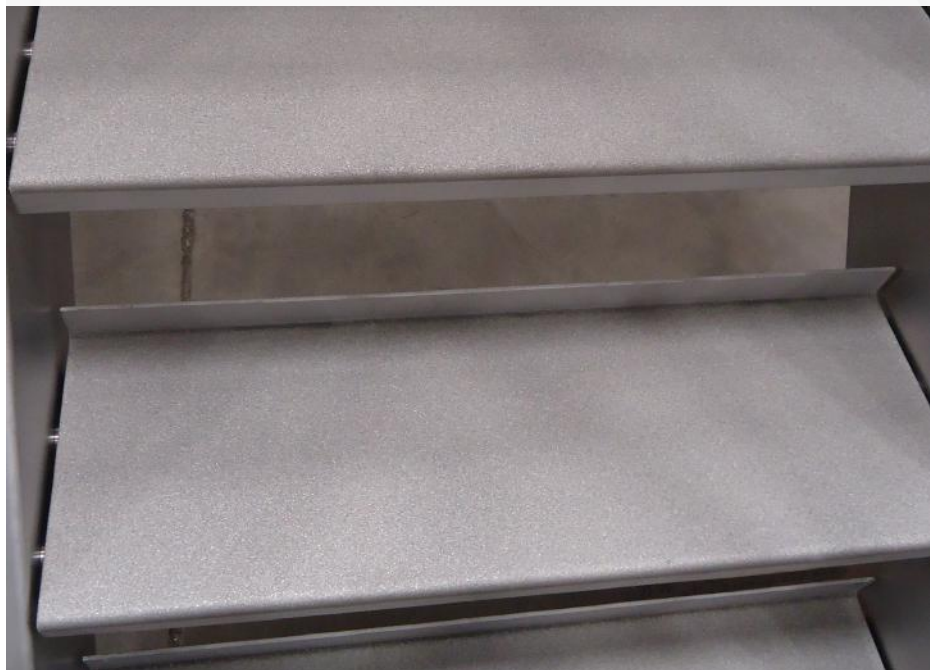

NSF registered for use in food processing facilities; SlipNOT's high traction, stainless steel products are engineered for applications where safety, sanitation, and durability are vital.

PINNACLE FOODS INC.

SOLUTION: Pinnacle Foods installed 3/16" thick *SlipNOT*® stainless steel stair treads for a fixed stairway in their packaging area. Since this is a sanitary environment, all welds were ground/polished and spacers were put between the treads and stringers to allow for cleaning.

COCA-COLA®

LOCATION: Atlanta, GA

SOLUTION: *SlipNOT*® supplied 19W4 Grade 2 galvanized steel grating and stair treads for Coca-Cola's bottling facility. The grating provided a high traction surface for employees that will last for years to come.

THE TURF CLUB BAR & GRILL AT WALT DISNEY

LOCATION: Lake Buena Vista, FL

SOLUTION: The Turf Club kitchen at Walt Disney replaced their existing bare metal grating with SlipNOT®'s aluminum ADA diagonal punched plank. The slip resistant plank provides drainage and additional surface coverage for employees.

TYSON FOODS

LOCATION: Wilkesboro, NC

SOLUTION: Tyson was in need of a high traction product for their portable rolling platforms. SlipNOT® was contacted and provided non-slip stainless steel stair treads which are chemical and corrosion resistant.

According to NFSA, floors and flooring materials contribute to more than two million fall injuries each year. Approximately 60% of falls are on the same level
